QUALITY POLICY

Siemag is committed to create value by designing and manufacturing Pneumatic accessories that meet customer's expectations for performance, reliability, availability and price.

We shall satisfy all applicable requirements and strive to meet the divergent needs of customers and delight them by consistently providing a rapid response to their needs.

Siemag shall ensure appropriate actions are taken on issues defined in the context of our organization and those related to interested parties.

Above shall be achieved by establishing and continually improving our quality management system through involvement of our entire team and associates.
